Medical Marihuana License Application

Ordinance No. 72 of the Charter Township of Lansing's Code of Ordinances states that no cultivation, distribution or other assistance to patients by a caregiver or other person permitted under the Act shall be lawful at a location until such location has been licensed. By way of exception, it is not the intent of Ordinance No. 72 to require a license for the principle residence of a patient where marihuana is cultivated or used exclusively for that patient's personal consumption. However, a location other than a patient's principal residence where a patient cultivates or uses marihuana shall be subject to the licensure requirements of Ordinance No. 72 .
